WILDLIFE GROUP

Adopt an Animal

School Edition

Introduction

The first step towards inspiring children to do their part for wildlife conservation is to connect them to the natural world. Adopt-An-Animal School Edition is designed to empower children to be wildlife champions as well as to encourage collaborative team efforts and creative thinking. Adopt-An-Animal School Edition also makes available resources and experiences relating to conservation and sustainability to support teachers in facilitating extended learning opportunities.

For SSDB 2022, MWG would like to invite preschoolers to join hands and protect these animals. Every effort counts, none too small.

How can your students help?

Learn more about rainforests and the adopted animal.

Share their knowledge and generate awareness through various platforms.

Organise a fundraising activity in support of their adopted animal.

Organise an activity at your school or within your community to engage people and spread the conservation message. For example, students might set up a showcase at their centre to share their efforts with family, friends and the community to celebrate International Orangutan Day.

Please send in your proposals to ECDA.

MWG will contact the centres with shortlisted proposals for further discussion.

Animals for Adoption

- Select one of these animals for your SSDB project
- 4 adoption tiers - \$200 | \$500 | \$1000 | ≥ \$5000
- Visit MWG website or our social media platforms for more resources
