

Playeum x SSDB 2022

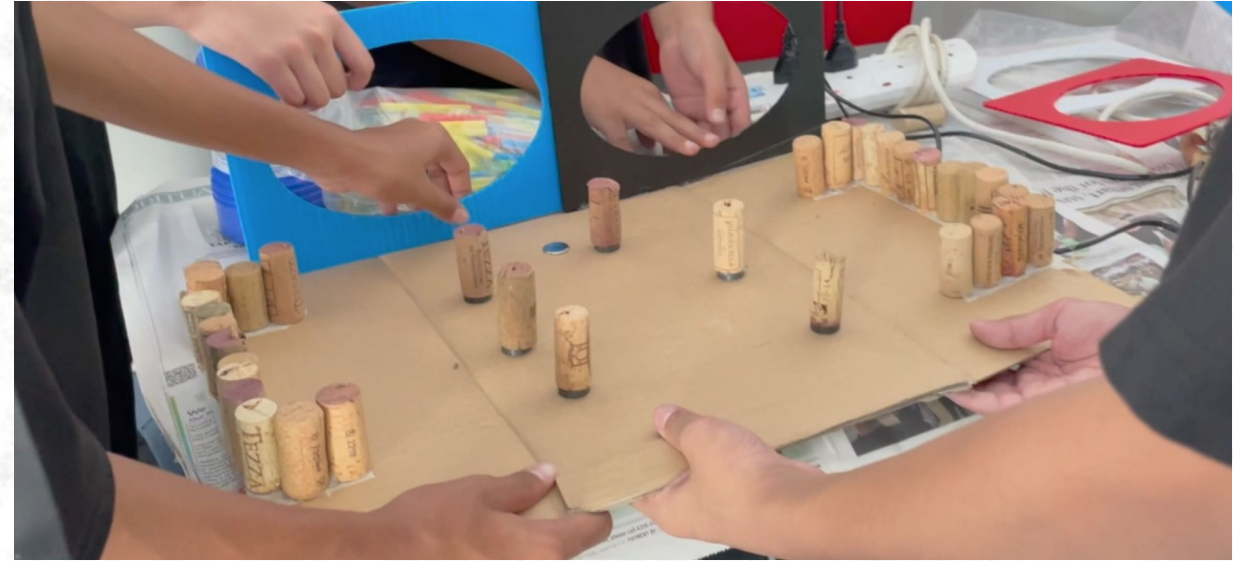

Our Family, Our Community

Hello there! We are Playeum :)

We are an independent charity organisation (IPC) that creates equal opportunities for children in Singapore to develop creativity and confidence through play and the arts.

In particular, we work with children from marginalised backgrounds and children with varying disabilities. We hold safe and non-judgmental spaces for children to have a voice and be heard, as well as to build 21st-century life skills such as critical thinking, communication, and collaboration. Through this, **children are empowered to thrive and be the best versions of themselves.**

Our work also **supports adults in becoming powerful creative facilitators for children** as we shift mindsets to seeing children as creative and competent.

We strongly believe in the power of play and the arts, that it brings forth opportunities of exploration, expression, building connections and starting conversations.

Play experience: Our Community Plate with Playeum

To put it simply, Our Community Plate is our take on nasi padang. What do you order when you go to the nasi padang stall? We are definitely ordering all our favourite side dishes, from the fried chicken wing, to the rendang and not forgetting, our beloved begedil.

Our Community Plate puts food at the centre stage and invites you to build a meal together with others in your community through crafting and sharing. Everyone brings to the plate something they love, or perhaps something that have always wanted to try. At the same time, it is also about sharing the stories and culture behind what they bring along.

The preparation of food has culturally been the work of many coming together, reminiscent of the days you see the elderly connecting while plucking bean sprouts at the void deck. Come play and celebrate with us as we take your through the potential this activity has for all!

Play experience: Our Community Plate with Playeum

What you can expect

- A play experience to connect with others in the preschool educators community
- Guided reflection and discussion on applications of this play experience
 - How can we take this experience/workshop back to others we work with, be it in the school or in the wider community?
 - How can this experience be extended?

This workshop is highly interactive and we encourage educators who sign up to actively play together with us :)
